SAARTHI

ABOUT OUR WEBSITE

Saarthi is a platform that connects people who want to volunteer with organizations that need volunteers. It helps users find volunteer opportunities based on their skills, interests, and availability, while also allowing organizations to post and manage their volunteer requirements. The goal is to make volunteering easier, more organized, and more impactful for both volunteers and organizations.

SCOPE

DESIGN TIMELINE

DESIGN PROCESS

ABOUT DESIGN THINKING

Design Thinking is a process that helps people solve problems by understanding what they need, creating ideas, building simple versions, and testing them to improve the solution. It focuses on empathy, clarity, creativity, and learning from users.

EMPATHIZE	DEFINE	IDEATE	PROTOTYPE	TEST
Understand users' needs, problems, and experiences through research and observation.	Clearly define the problem based on what users need and what they face.	Generate ideas and solutions to the defined problem.	Create simple versions of the solution to test ideas.	Test the prototype with users to gather feedback and improve the solution.
